ghosts

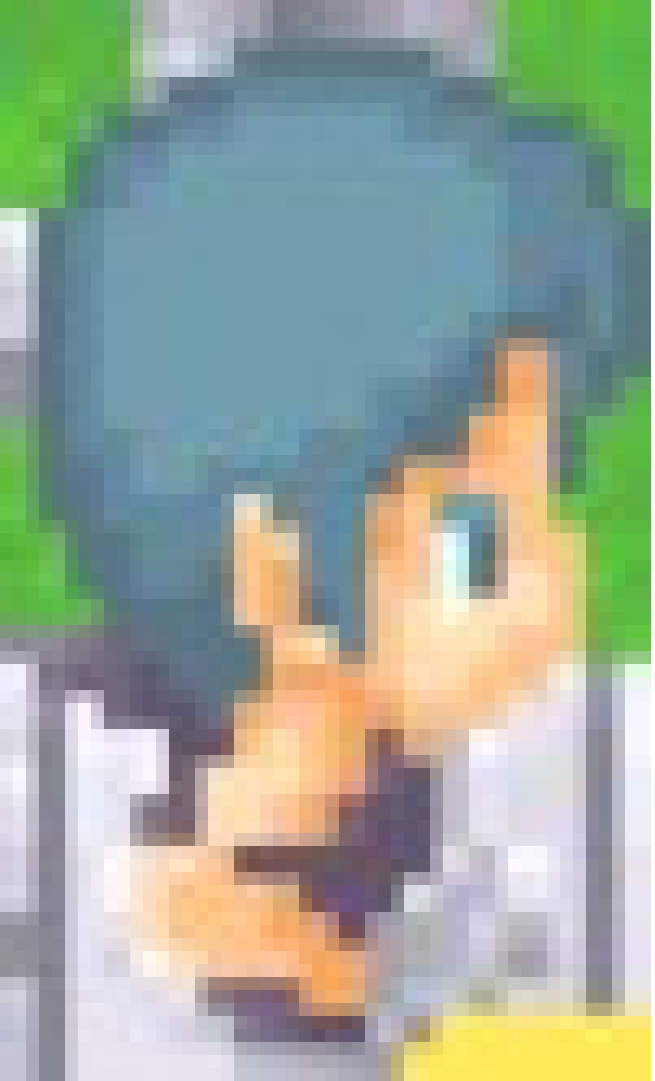
They hop around and when you touch them you die

dumbos

When they're red they're about to breath fire

egg

Can’t hurt you. Will flash and after a enemy will spawn different depending on the level.



Fairy person

When time runs out she will come after you flying over everything

500 points per second left on the clock

Points for killing enemies

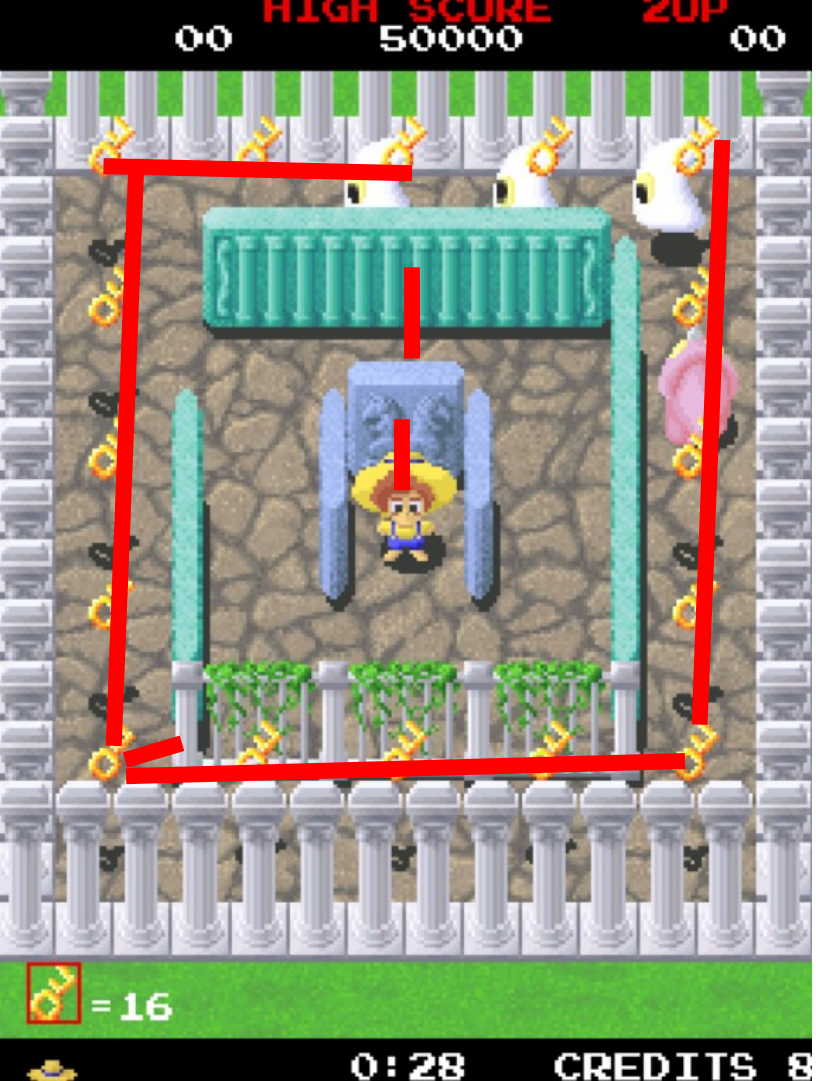
Killing multiple at once gives more points than killing separately

Points for keys

Points for gems

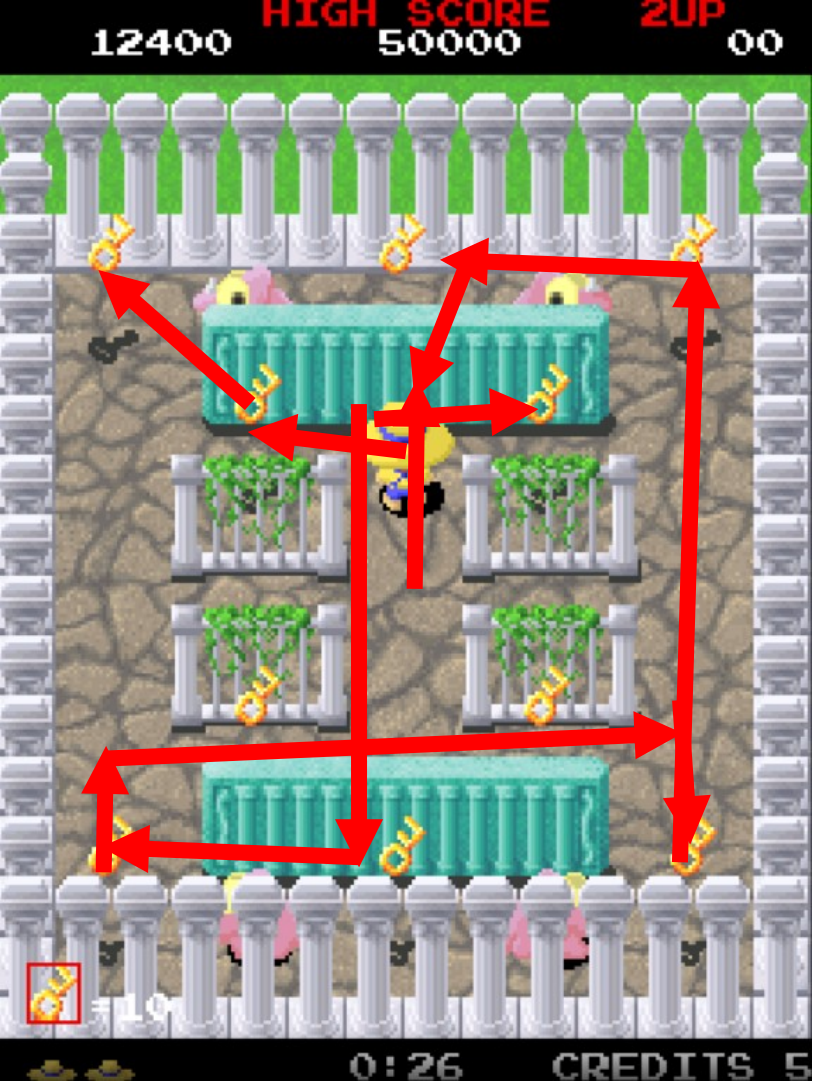
Step 1 die 3 times

And inset another coin to continue this will give you one extra life



Step 2

Make sure you ended it with 19 or more seconds on the clock



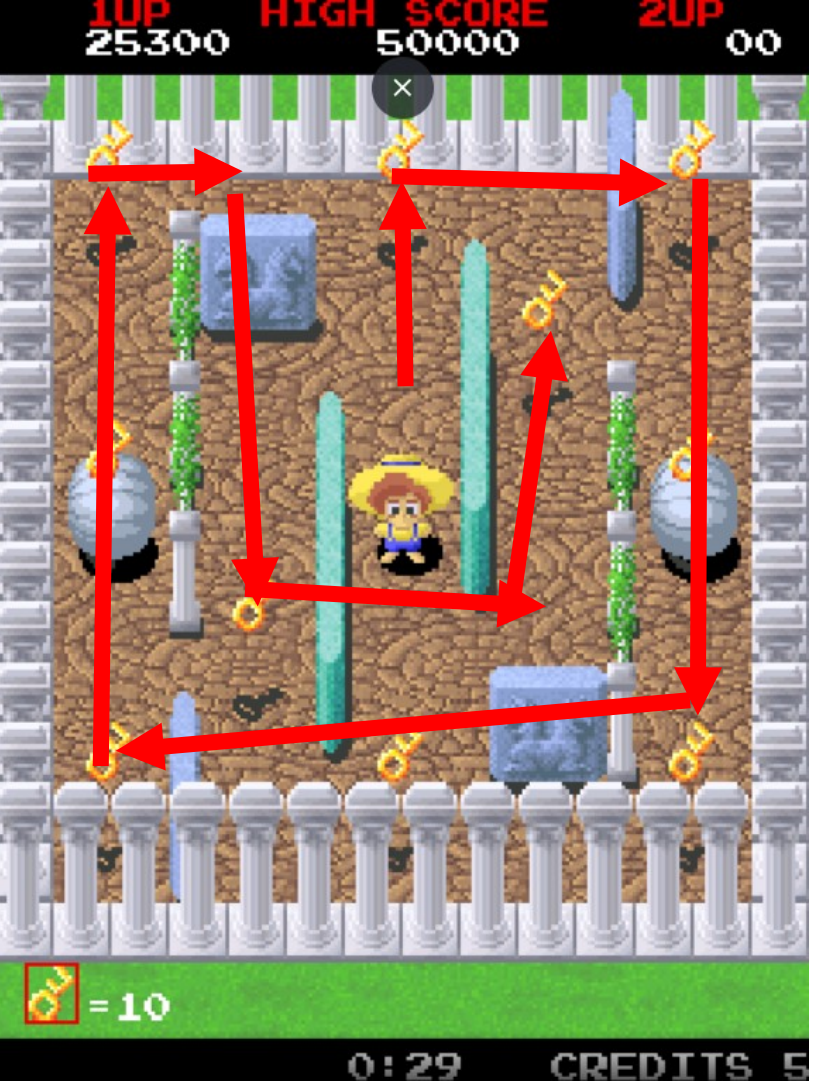
You haft to be fast this bareilly w

Gem map

=500

armadillo

2ed most dangerous creature in the game they look in a direction then look the opposite direction and go that unless they can’t in which case they look the other way and go that way. They also go horizontal vertical horizontal vertical horizontal vertical if they hit a pushable wall they push it and they can kill you in this way.



You only haft to push over 2 wall because the armadillos did it for you

Also how do you haft?

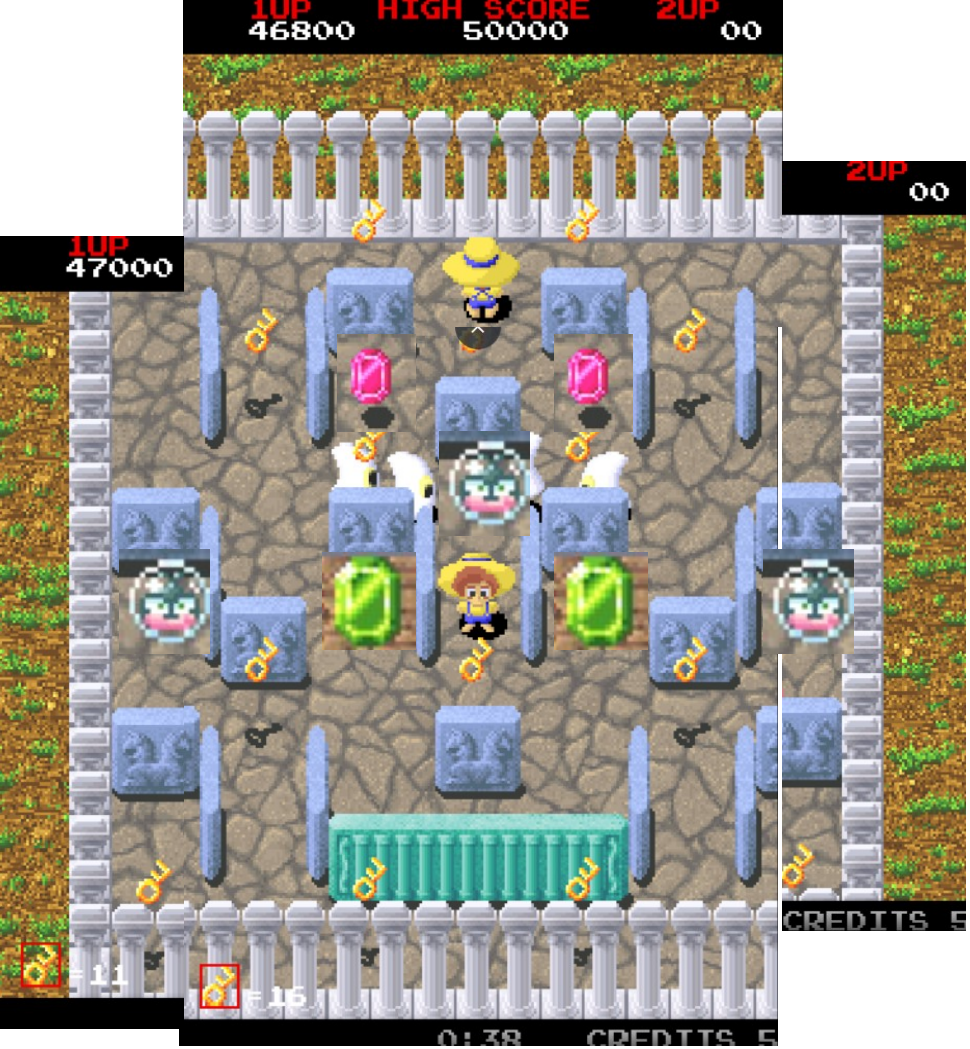
This will bait the ghosts

Push down this wall



This is a very high scoring level so dying and doing it again is a strategy

=3000

=causes an earthquake that leaves all enemies motionless and harmless
